PROFILE I'm a highly motivated Year 2 Information Technology student at Singapore Polytechnic with a strong interest in technology and creating engaging digital experiences. I have hands-on experience in Java, HTML, CSS, JavaScript, and SQL, and I'm eager to apply my problem-solving and logical thinking skills in a real-world environment. With a keen eye for detail and a passion for learning new domains like UI/UX and immersive design, I am actively seeking an internship or mentorship in a creative technology field.
